Asbestos Inspection: 11393 Blackhawk Path Lakeview, OH 43331

Heather,

H&H Environmental, LLC. has completed an inspection for asbestos-containing materials (ACM) at 11393 Blackhawk Path Lakeview, OH 43331. This inspection was performed by Tyler Rister (Certification # 35958) and Jace Hurt (Certification #36450) on November 6th 2025 in Lakeview, OH. Tyler Rister and Jace Hurt maintain a current Ohio EPA Asbestos Inspector Certification. Proof of this certification is attached.

The building appears to have been subject to severe damage, and disrepair rendering the building unsafe. All observed building materials appeared to be severely damaged and in poor condition. The structure has collapsed in upon itself. It is the opinion of H&H Environmental that the building (house) cannot be safely inspected and, therefore, an asbestos abatement of the interior cannot be safely performed. H&H Environmental recommends that this building be treated as regulated asbestos containing material for disposal and taken to a landfill that accepts friable asbestos containing material.

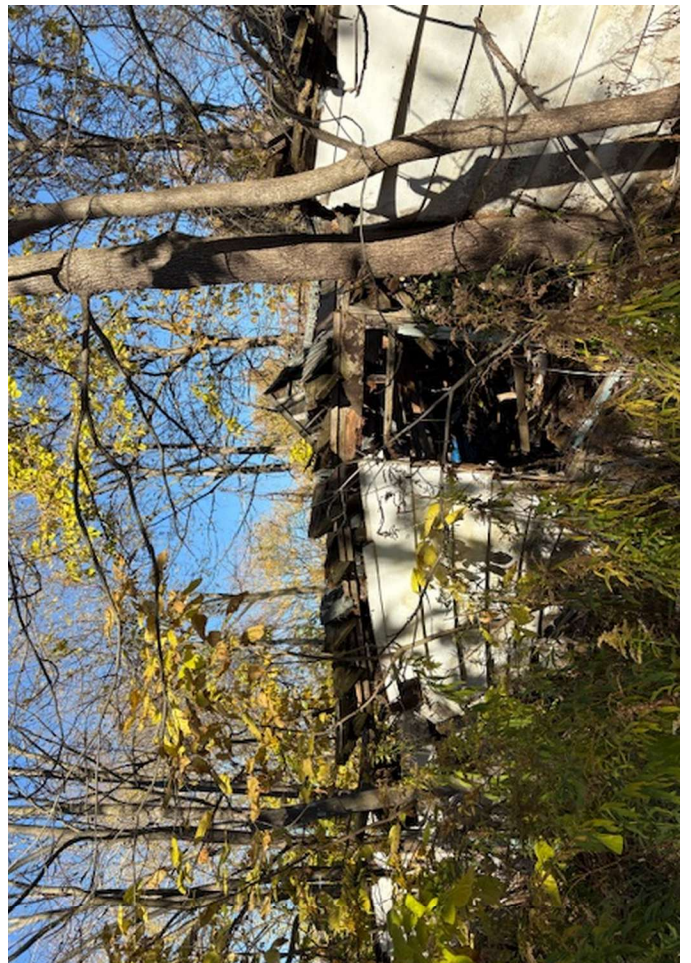

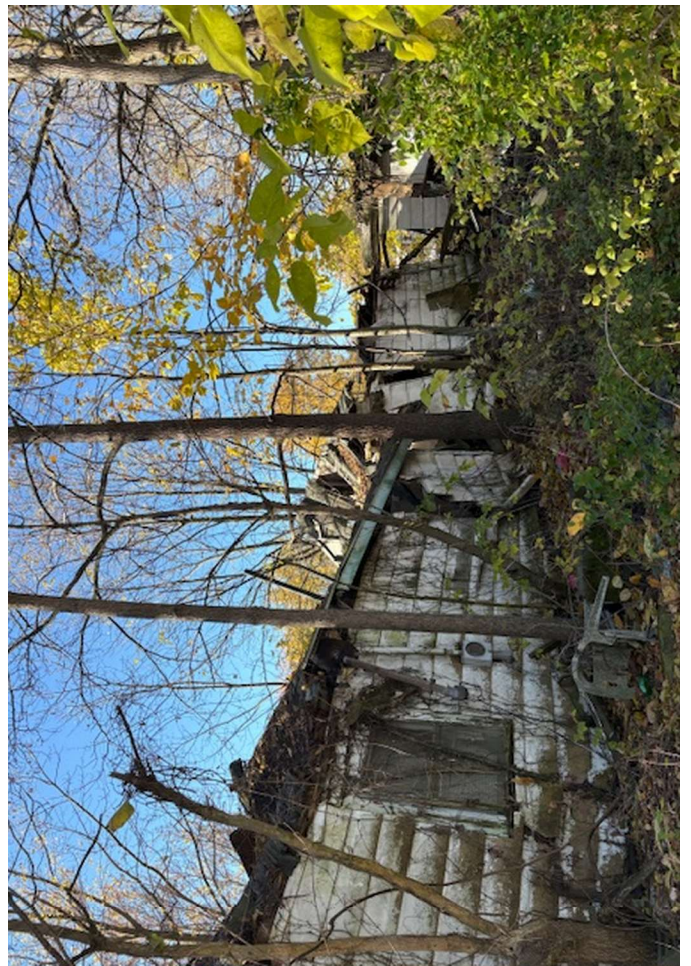

If you have any questions or concerns please feel free to contact H&H Environmental's Charles E. Hurt at 419-618-3072.

Thank you,
Tyler Rister
Certification #ES35958

A handwritten signature in black ink, appearing to read 'Tyler Rister'.

Jace Hurt
Certification#ES36450

A handwritten signature in black ink, appearing to read 'Jace Hurt'.
